Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The amended claims define the sheets as fixed at the peripheral areas by heat sealing. In the examiner's opinion, the prior art neither discloses, nor fairly suggests the hygroscopic material layers located between the moisture-permeable layers and screen layers at the peripheral areas. The closest available references are Caggiano and Yuichi. Caggiano clearly teaches away from the claimed arrangement. Yuichi is primarily silent on the structural arrangement at the peripheral area, yet teaches an arrangement in which the moisture-absorbing agent is "not exposed" (see PTO Translation 2003-3872 at page 7, lines 7-9). Placement of the hygroscopic material layers between the moisture-permeable layers and screen layers at the peripheral areas as claimed would expose the end portions of the hygroscopic layer to ambient air, and therefore runs counter to the teachings of Yuichi.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
